Management's Discussion and Analysis Holland Area Community Swimming Pool Authority

Using this Annual Report

This annual report consists of a series of financial statements. The Government-wide Statements include Statements of Net Assets and the Statement of Activities which provide information about the activities of the Authority as a whole and present a longer-term view of the Authority's finances. Fund financial statements tell how these services were financed in the short term, as well as what remains for future spending. Fund financial statements also report the Authority's operations in more detail than government-wide financial statements.

The Authority as a Whole

In a condensed format, the table below shows the net assets as of the current date:

	2003/04	2004/05
Current assets	1,701,080	1,387,640
Capital assets	11,877,771	11,575,063
Other Assets		307,001
Total assets	13,588,851	13,269,704
Long term debt outstanding	8,770,000	8,140,000
Other liabilities	513,957	604,070
Total liabilities	9,283,957	8,744,070
Net Assets		
Invested in capital assets – net of debt	2,702,771	2,960,063
Restricted	487,419	81,838
Unrestricted	1,114,704	1,483,733
Total Net Assets	4,304,894	4,525,634

Unrestricted net assets represents the portion of net assets that can be used to finance day to day operations. The current level of unrestricted net assets for our governmental activities stands at \$1,483,733, or about 55% of expenditures. This is within the targeted range set by the Authority Board during the last budget process.

The following table shows the changes in net assets for the year ended June 30, 2005:

	2003/04	2004/05
Revenues	2000/04	2007/00
Charges for services	912 409	920 606
	812,408	839,696
Property taxes for general purposes	1,008,299	1,031,480
Property taxes for debt services	876,170	875,015
Investment earnings	38,861	62,460
Revenue sharing proceeds	29,244	29,244
Total Revenues	2,764,982	2,837,895
Expenditures		
Pool operations	2,651,071	2,612,067
Total expenditures	2,651,071	2,612,067
Change in net assets	113,911	220,740

The Authority's net assets continue to remain healthy. Total revenues increased by 2.6% primarily due to increases in tax revenues, charges for services and interest income. Expenses decreased primarily due to decreased costs for capital outlay even though energy costs and costs for supplies continued to rise.

The Authority's Funds

Our analysis of the Authority's major funds begins on page 7 following the entity wide financial statements. The fund financial statements provide detailed information about the specific funds, not the Authority as a whole. The Authority Board creates funds to help manage money for specific purposes as well as to show accountability for certain activities such as special property tax millages. The Authority's two funds are the General Fund and the Debt Retirement Fund.

The General fund pays for the day to day operation of the Holland Community Aquatic Center. The Debt Retirement Fund pays for the principal and interest on the Authority's bonded indebtedness.

General Fund Budgetary Highlights

Over the course of the year, the Authority Board amended the budget to take into account events during the year. Differences between the original budget and the final amended budget revenues were \$(14,875) and expenditures were \$(3,125). These amounts can be summarized as follows:

Activity fees -25,500, Facility Rental +10,625, wages/benefits -21,500, Purchased services +10,000, travel/conferences -700, utilities/insurance - +16,000, supplies +20,075, equipment +1,000, dues and fees +5,500, misc. expense -1,500.

These budgetary changes were funded by drawing from the available fund balance. At the end of the current fiscal year the unreserved fund balance of the general fund was \$1,231,951. At the end of the previous fiscal year the fund balance amounted to \$1,195,404. These two figures indicate the fund balance increased by \$36,547. The primary reason for this was holding of expenditures below budgeted levels.

On January 1, 2005, the Authority terminated an agreement with Holland Public Schools to provide the employees for the Aquatic Center. The Authority has now become the employer for all its own employees. The financial impact of this change has presented a savings to the Authority because of lower health insurance costs, lower retirement costs, and lower insurance costs. More importantly, the Authority now has the capacity to make decisions concerning the levels of salaries and benefits, which in the future will allow the Authority to have complete control over its financial position.

Debt Service Fund Budgetary Highlights

The Debt Service Fund ended this fiscal year with a fund balance of \$81,838 all of which is reserved for payment of the debt service. The fund balance at the end of the previous fiscal year was \$487,419. This decrease was primarily due to the decision of the Authority Board to refinance the bonds at lower interest rates and to use approximately \$460,000 from the fund balance to decrease the total amount financed.

Capital Asset

The Authority's investment in capital assets as of June 30, 2005 amounts to \$11,575,063. This investment includes land, buildings, improvements, machinery and equipment. The current amount reflects accumulated depreciation of \$2,193,584.

Long Term Debt

At the end of the current fiscal year, the Authority had a total bonded debt outstanding of \$8,615,000. The Authority's debt decreased by \$570,000 during the current fiscal year as bonds were paid off and the remaining bonds were refinanced. The 1996 bonds remaining with interest at an average rate of 4.39894% were refunded. Total principal and interest for these bonds was scheduled to be \$12,253,719. The 2004 refunding bonds carry an average interest rate of 3.78150% and the total principal and interest for the refunding bonds is scheduled to be \$11,715,339. Savings to the taxpayers from this refunding total \$538,380.

Economic Factors and Next Year's Budgets and Rates

The Authority's budget for the year ending June 30, 2006 was developed with the knowledge that the present voted operating millage of .85 mills may be rolled back slightly due to the Headlee amendment. It also assumes a growth in taxable value across the Authority of 1.5%. The expenses of the Authority are expected to increase as costs for utilities, labor, and health insurance premiums rise. As the Aquatic Center facility ages, we also expect that costs for maintaining the facility will increase due to necessary replacement of equipment as it reaches the useful end of its life expectancy. There are no major capital projects planned for the current fiscal year.

As discussed above, it is anticipated that the Authority will evaluate the need for possible increases in fees charged for services, cost saving measures, as well as continual analysis of the amount of assets held in fund balance.

Contacting the Authority's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the Authority's finances and to show the Authority's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the Executive Director at the business office of Holland Community Aquatic Center, 550 Maple Ave., Holland MI 49423.

INDEPENDENT AUDITORS' REPORT

Board of Directors Holland Area Community Swimming Pool Authority Holland, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of the Holland Area Community Swimming Pool Authority as of and for the year ended June 30, 2005, which collectively comprise the Holland Area Community Swimming Pool Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Pool Authority's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the Holland Area Community Swimming Pool Authority as of June 30, 2005 and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages i - iv and 23, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued a report dated August 18, 2005 on our consideration of the Holland Area Community Swimming Pool Authority's internal control structure over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Holland Area Community Swimming Pool Authority's basic financial statements. The accompanying information identified in the table of contents as other supplemental information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Holland Area Community Swimming Pool Authority Holland, Michigan

We have audited the basic financial statements of Holland Area Community Swimming Pool Authority as of and for the year ended June 30, 2005, and have issued our report thereon dated August 18, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Holland Area Community Swimming Pool Authority's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of the Holland Area Community Swimming Pool Authority in a separate letter dated August 18, 2005.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Holland Area Community Swimming Pool Authority's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting that

might be material weaknesses. A material weakness is a condition in which the designed operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over the financial reporting that we have reported to management of the Holland Area Community Swimming Pool Authority in a separate letter dated August 18, 2005.

This report is intended solely for the information and use of the audit committee, management and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Holland Area Community Swimming Pool Authority is involved with the ownership and operation of a community swimming pool.

The financial statements of the Holland Area Community Swimming Pool Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

In June 1999, the GASB issued Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain of the significant changes in the Statement include the following:

A Management Discussion and Analysis (M D & A) section providing an analysis of the Authority's overall financial position and results of operations.

Financial statements prepared using full accrual accounting for all of the Authority's activities.

A change in the fund financial statement to focus on major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements). The Authority also implemented GASB #33, *Accounting and Financial Reporting for Non-exchange Transactions*. The pronouncement defines revenue recognition for non-exchange transactions at the fund and governmental levels.

A. Reporting Entity

The Holland Area Community Swimming Pool Authority is formed for all purposes permissible under Act No. 425, Public Acts of Michigan, 1994, as amended including but not limited to the ownership and/or operation of a community swimming pool. The following participating municipalities have adopted resolutions providing for the establishment of and the municipality's participation in the Holland Area Community Swimming Pool Authority: City of Holland, Holland Charter Township, Park Township, and Laketown Township.

B. Basic Financial Statements

Government Wide Statements

The Authority's basic financial statements include both government-wide (reporting the Authority as a whole) and fund financial statements (reporting the Authority's major funds). The government-wide financial statements categorize primary activities as either governmental or business type. All of the Authority's activities are classified as governmental activities. Fiduciary funds are excluded from the government-wide financial statements. The Authority currently does not have any Fiduciary funds.

B. Basic Financial Statements (Continued)

In the governmental-wide Statement of Net Assets, the governmental activities are presented on a consolidated basis and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Authority's net assets are reported in three parts, invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The Authority first utilizes restricted resources to finance qualifying activities.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted State aid.

The net costs (by function) are normally covered by general revenue (property taxes, state sources, federal sources and interest income).

The Authority does not allocate indirect costs. In creating the government-wide financial statements the Authority has eliminated interfund transactions.

This governmental-wide focus is more on the sustainability of the Pool Authority as an entity and the change in the Pool Authority's net assets resulting from current year's activities.

Fund Financial Statements

The Authority uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain Pool functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into two categories: governmental and fiduciary.

Included in the financial statements are:

Governmental Funds:

Major Governmental Funds:

General Fund - Accounts for all revenues and expenditures except those required to be accounted for in other funds.

Debt Retirement Fund - Accounts for receipt of funds and payment of interest, principal, and other expenses on long-term bonded debt.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurements made, regardless of the measurement focus applied.

Accrual

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when both measurable and available.

"Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For the Pool Authority, available means expected to be received within sixty days of the fiscal year-end.

Expenditures are generally recognized when the fund liability is incurred. The exception to this general rule is that principal and interest on general long-term debt is recognized when due.

D. Investments

Investments are stated at market value.

E. Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" and "due to other funds" on the balance sheet.

F. Net Deferred Bond Refunding Costs

The Authority has deferred bond refunding costs from the 2004 refunding bond. GASB 23 requires the deferred bond costs to be amortized over the shorter of the life of the old debt or the new debt. Therefore, the Authority is amortizing the deferred bond costs over 14 years, as the lives for both debt issues was the same, using the weighted average method. Amortization expense for the year ended June 30, 2005 amounted to \$ 0.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Unemployment Taxes

The Pool Authority contracted its labor from the School District of the City of Holland through December 31, 2004 which has elected the reimbursement method for the payment of Michigan Unemployment Taxes. The amount of reimbursement which the Pool Authority may have to pay is indeterminable at the balance sheet date, and accordingly, no provision is included in the financial statements. It is not anticipated that any payment would have a material effect upon the financial statements. Starting on January 1, 2005, the School District of the City of Holland employees working at the pool became employees of the Pool Authority. The Pool Authority files and pays unemployment taxes on a quarterly basis.

H. Accumulated Sick Leave, Vacation Liability

In accordance with certain employment policies employees may accumulate a maximum of 720 hours of sick leave, but this will not be paid upon termination of employment. Vacation time of 40 hours maximum, may be carried over to the following year, upon termination of employment, employees will be paid for unused vacation time. Under the terms of these policies the amount which will ultimately be paid by the Pool Authority is indeterminable at the balance sheet date, and accordingly, no additional provision is included in the financial statements.

H. Net Assets/Fund Balance

Reserves represent those portions of fund balance/net assets not appropriable for expenditure or legally segregated for a specific future use.

I. Capital Assets

The Authority has adopted a capitalization policy that considers individual items with a value greater than \$ 5,000 as capital assets.

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair market value on the date received.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Buildings and additions 15-50 years Furniture, Fixtures and Equipment 5-15 years

Other accounting polices are disclosed as appropriate in other notes to the financial statements.

J. Legal and Budgetary Requirements

The Michigan Uniform Budgeting and Accounting Act requires the establishment of the General Fund with an annual budget adopted by the Board at the beginning of the fiscal year.

State law requires operation under a balanced budget and budgetary control to the functional, activity or line item level as defined in the Uniform Budgeting and Accounting Act. The general fund and debt retirement fund budget figures in the accompanying financial statements have been reported on an activity basis and reflect approved amendments made during the year.

The budgets are prepared, controlled, and approved by the Board of the Authority.

The Authority uses the following procedures in establishing the budgetary data reflected in the financial statements:

- a. Starting in the spring, the Director of the Authority establishes a proposed operating budget for the fiscal year commencing the following July 1.
- b. Prior to June 30, a preliminary appropriations budget is adopted by the Board for the subsequent fiscal year to comply with State of Michigan regulations.
- c. Budgets for the General Fund and Debt Retirement Fund are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts are as originally adopted or as amended by the Board on various dates. Individual amendments were not material in relation to the original appropriations, which were amended.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Legal and Budgetary Requirements (Continued)

Once a budget is approved, it can be amended at the Function and Fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at their regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, and are reflected in the official minutes of the Board and are not made after fiscal year-end as dictated by law.

The final amended budget was approved by the Board on June 22, 2005 for the General Fund and Debt Retirement Fund.

K. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 2: CASH AND INVESTMENTS

Balances at June 30, 2005 relating to cash in bank and investments are detailed on the combined balance sheets as follows:

	Financial <u>Statements</u>	
Cash in Bank Investments	\$ 271,81 1,114,40	,
Totals	<u>\$ 1,386,22</u>	23 \$ 1,391,484

The difference in the financial statement balances and the bank balances is due to outstanding checks and deposits in transit at June 30, 2005. Cash in bank consists of checking accounts of which \$ 100,000 was covered by federal depository insurance. At June 30, 2005, the Pool's uninsured cash in bank balance totals \$ 177,079.

The Authority is authorized to invest in the following: bonds, bills or notes of the United States; obligations fully guaranteed by the United States; obligations of the State; certificates of deposit issued by banks and savings and loan associations which are insured with the applicable federal agency; commercial paper rated prime and maturing not more than 270 days after date of purchase; bankers' acceptances issued by a bank that is a member of FDIC; investment pools that are composed entirely of instruments that are legal for direct investment by the Authority.

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

The Authority includes certificates of deposit and savings accounts in "Investments" on the Balance Sheet.

At June 30, 2005, \$1,114,405 of the Bank/Investment Balance includes \$948,389 which is invested in a Greenleaf Trust Portfolio. The Greenleaf Trust Portfolio is made up of \$375,155 invested in Certificates of Deposit; \$444,255 is invested in various US Government Agency Bonds and the remaining \$128,979 is invested in various Money Market Funds which are uninsured and uncollateralized. In addition, \$166,016 is invested in a public funds at the Bank of Holland all of which is uninsured and uncollateralized.

The Composition of Investments follows:

	Cost	Fair <u>Value</u>
Greenleaf Trust Investments Bank of Holland – Savings Account	\$ 953,583 166,016	\$ 948,389 166,016
TOTALS	<u>\$ 1,119,599</u>	<u>\$ 1,114,405</u>

NOTE 3: CAPITAL ASSETS

A summary of changes in Governmental capital assets follows:

Assets not Being	Balance <u>7/01/04</u>	Additions	Disposals and Adjustments	Balance <u>6/30/05</u>
Depreciated - Land Other Capital Assets:	\$ 10,000	<u>\$</u>	<u>\$</u>	\$ 10,000
Buildings Furniture and Equipment Subtotal	13,474,270 292,009 13,766,279		7,632 7,632	13,474,270 <u>284,377</u> 13,758,647
Accumulated Depreciation: Buildings Furniture and Equipment Subtotal	1,784,147 104,361 1,888,508	277,385 30,235 307,620		2,061,532 132,052 2,193,584
Net Other Capital Assets	<u>11,877,771</u>	307,620	5,088	11,565,063
Net Capital Assets	<u>\$ 11,887,771</u>	\$ 307,620	\$ 5,088	<u>\$ 11,575,063</u>

Depreciation for fiscal year ended June 30, 2005 amounted to \$307,620, and is allocated directly to Pool Operations.

NOTE 4: GENERAL LONG-TERM DEBT

The following is a summary of changes in long-term debt for the year ended June 30, 2005:

Ronds

	Donas
Balance – July 1, 2004	\$ 9,185,000
Bond Proceeds	8,175,000
Bond Retirement	(8,330,000)
Bond Payments	 (415,000)
Balance – June 30, 2005	\$ 8,615,000

General long-term debt consists of the following:

1997 Bond Issue	\$ 440,000
2004 Bond Issue	 8,175,000
Total	\$ 8,615,000

Bonds payable consists of the following:

\$11,250,000 - 1997 General Obligation Bond issue consisting of \$7,485,000 serial bonds due in installments of \$150,000 to \$690,000 in the years 1998 through 2014 with interest of 5.125% to 7.125% and \$3,765,000 term bonds due in installments of \$725,000 to \$760,000 in the years 2015 through 2019 with interest of 5.125%.

\$ 440,000

\$ 8,175,000 – 2004 Refunding Bonds were issued to refund a portion of the 1997 General Obligation Bonds. The serial bonds are due in installments of \$ 35,000 to \$ 750,000 in the years 2006 through 2019 with interest of 2.250% to 5.250%.

rs 2006 through 2019 with interest of 2.250% to 5.250%.

Total \$8,175,000

Current Portion 475,000

Long-Term Debt \$8,140,000

Maturities of bonds payable are as follows:

<u>terest</u>
331,314
302,806
290,181
275,744
259,394
008,225
302,350
֡

NOTE 4: GENERAL LONG-TERM DEBT (CONTINUED)

Interest expense on bonded debt for the year ended June 30, 2005 was \$416,639, as reported in the fund financial statements (modified accrual). Interest expense on the government wide statements (full accrual) for the year ended June 30, 2005 is allocated directly to pool operations in the amount of \$391,158.

NOTE 5: ADVANCE REFUNDING BONDS

On October 20, 2004, the Authority issued \$8,175,000 in refunding bonds with interest rates ranging between 2.250% and 5.250%. The Authority issued the bonds to advance refund \$8,330,000 of outstanding 1997 bonds. The Authority used the net proceeds along with other resources to purchase U.S. Government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the bonds. As a result, that portion of 1997 bonds are considered defeased, and the Authority has removed the liability from its accounts. The outstanding principal of the defeased bonds is \$8,330,000 at June 30, 2005.

The advance refunding reduced total debt service payments over the next 15 years by nearly \$1,155,000. This results in an economic gain (difference between the present values of the debt service payments on the old and new debt) of nearly \$916,000.

NOTE 6: PROPERTY TAXES

Property taxes are recorded as revenue in the General Fund and Debt Retirement Fund in the year in which they are due. Properties are assessed as of December 31 and the related property taxes are levied and become a lien on July 1. The final collection date is February 28, after which uncollected taxes are added to the County tax rolls.

	<u>Tota</u>	l Collected	Summer Taxes	Winter Taxes
City of Holland Holland Township Laketown Townshi Park Township	\$ p <u>\$</u>	794,296 36,470 92,882 65,003 988,651	100% due August 15 50% due September 15 50% due September 15 50% due September 15	0% due February 15 50% due February 15 50% due February 15 50% due February 15

Property Taxes are recorded as revenue in the Debt Retirement Fund in the year in which they are due. The total amount received is as follows:

City of Holland Holland Township Laketown Township Park Township	\$ \$	673,519 30,891 78,675 55,060 838,145	100% due August 15 50% due September 15 50% due September 15 50% due September 15	0% due February 15 50% due February 15 50% due February 15 50% due February 15
---	----------	--	--	---

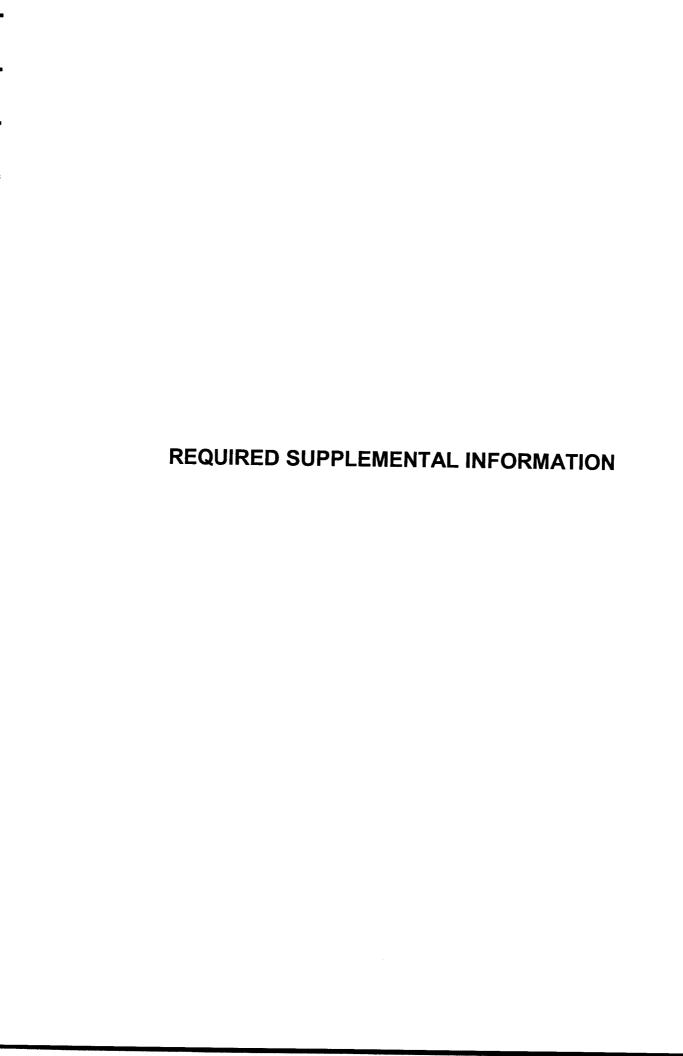

NOTE 7: COMMITMENTS

At the June 22, 2005 board meeting the Pool Authority Board authorized the purchase of a variable frequency drive to be installed on the water pumps for the 50 meter pool at a cost of \$13,300.

NOTE 8: RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

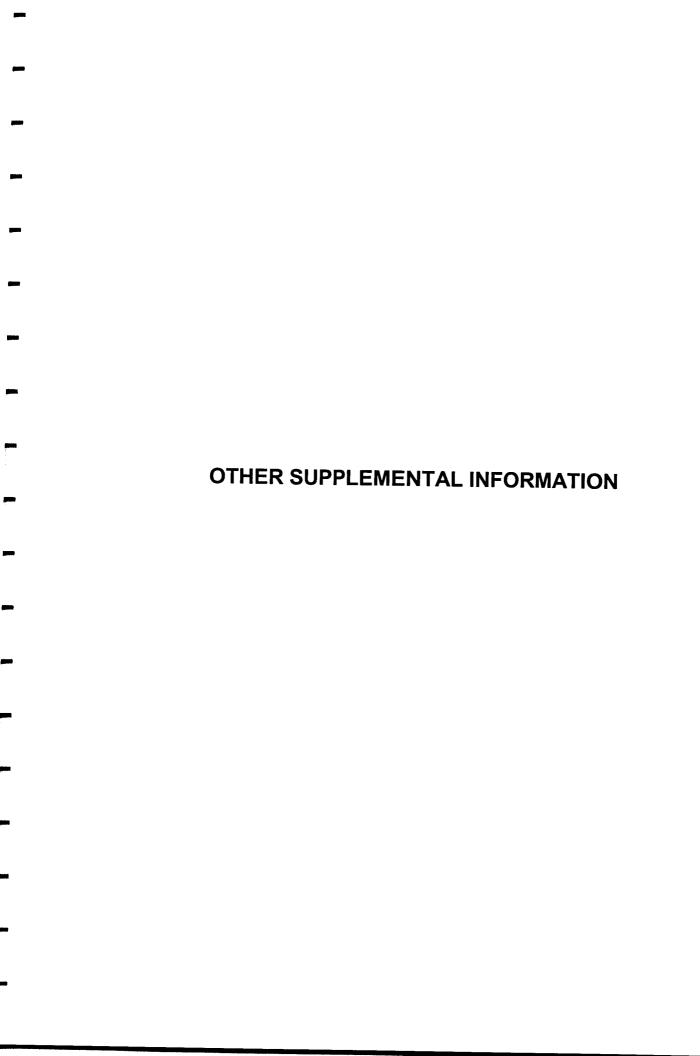

The Authority carries commercial insurance for all the above mentioned types of risks of loss including general, property damage, employee health and accident insurance, and workers' compensation. Settled claims have not exceeded the commercial coverage in the prior three years.

Board of Directors

Holland Area Community Swimming Pool Authority

Holland, Michigan

We have audited the financial statements of Holland Area Community Swimming Pool Authority for the year ended June 30, 2005 and have issued our reports thereon dated August 18, 2005.

In planning and performing our audit of Holland Area Community Swimming Pool Authority we considered its internal control structure as required by SAS No. 78, "Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55", Government Auditing Standards, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. We did not become aware of any conditions that we believe to be material weaknesses.

In connection with our audit of the financial statements of Holland Area Community Swimming Pool Authority, we observed day-to-day operations and wish to offer the following suggestions and comments:

BUDGET

The Uniform Budgeting and Accounting Act stipulates that expenditures may not exceed the amount budgeted. For the year ended June 30, 2005 there were expenditures in excess of budgeted amounts in the following area: **General Fund** — Other Miscellaneous Expense. This is the result of a year end payable relating to tax judgments found during the audit. We commend the Board for continuing to review and amend the budget periodically in order to comply with the Uniform Budgeting and Accounting Act.

GREENLEAF TRUST ACCOUNT

While auditing cash and investments we found that the activity for the Greenleaf Trust Account had not been recorded from January through June. The account activity should be recorded and the account reconciled monthly. From our discussion with the Director, there appears to be a need for some training for the bookkeeper working on this. Recording this activity will improve the accuracy of the Authority's accounting records.

This report is intended solely for the information and use of the Board of Directors, management and others within the organization. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

If you wish to discuss any of these suggestions in detail or if we can be of any further assistance with implementing any of the above suggestions please contact us.
